Passage (2)

Camels live in desert, where it is hot and dry. Camels have adaptations that help them live in deserts. They have a thick coat of hair that protects them from the sun. They have big and soft feet, so they can walk a long time in the hot sands.

Several adaptations help a camel live in a desert. When there is food and water, a camel can eat and drink large amounts and store it as fat in the hump. Then, when there is no food or water, the camel uses the fat for energy, and the hump becomes small and soft.

1. What does a camel do when there is no food and water?
2. Why are the hairs of the camels good?
3. Where do camels live?
4. In line 2, the underlined word “they” refers to :
a) deserts b) feet c) camels d) sands
5. According to the passage, a desert is a hot and dry place.
a) True b) False
